

A New Online Solution to your Learners Administration Headaches

The Virtual-IT Learning Management Systems (LMS) Platinum Plus has been designed to take larger Training Institutes and TVET's data into the Cloud. With new features such as:

- Adding your Learners to a Course in bulk
- Classroom booking per module
- Learner Rapid Search facility with multiple filters
- Assessment Weighting
- Application Status
- Course Completion Report
- Moderation Percentages
- Remediation Reporting
- Assessment Import from Virtual-Learning, our e-Learning platform
- ...and much more

Current Virtual-IT Pro and Platinum Owners

It won't cost you anything to migrate to the new Plus platform. Just give us a call and we will organise the data transfer for you for free.

**So what else does the LMS Platinum Plus version include?
Well we have the kept the well known Virtual-IT features as
shown below:**

Learners Module

- Full Contact and Demographic details
- Learner record duplication screening
- Communication and Absenteeism logs

 - HR Reports
 - Learner Reports
 - Client Reports
 - Training Event Reports
 - Qualification Reports
- Three Permission Access Levels
- Password Controlled Access
- Direct e-mailing of reports
- Exporting of data to Excel for self developing of Reports
- And much more...

There are also great advantages with Hosting your LMS database on our Cloud platform, such as:

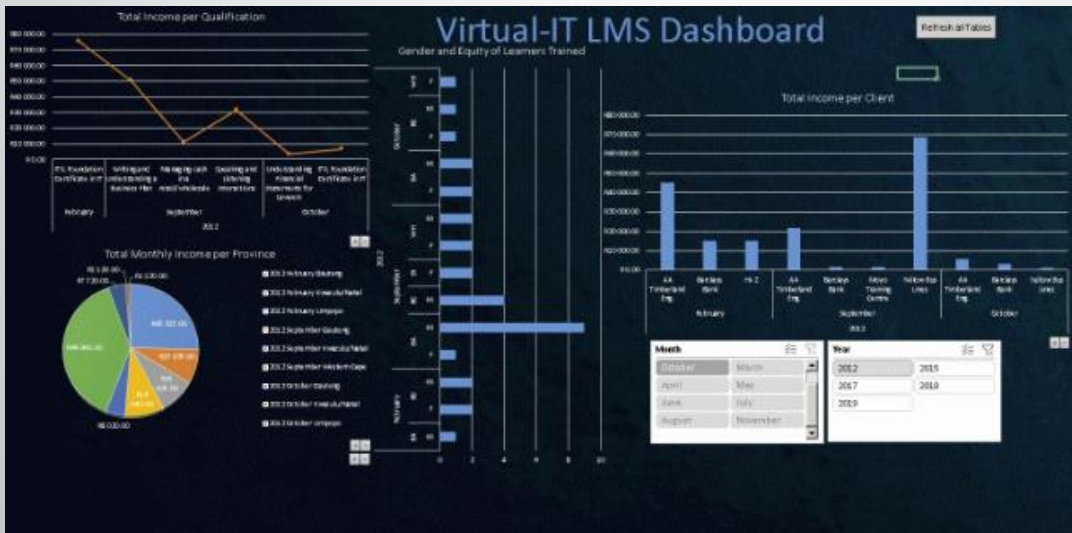

- **Disaster Recovery:** For any business, the loss of data can be catastrophic, with hosting your LMS on our Cloud server your data will automatically be backed up twice a day.
- **LMS Software Updates Done for You:** As the Cloud server is “Offsite” you don’t have to worry about the time or personnel to ensure your LMS software is updated regularly, including security, this is done for you by your service provider.
- **Work from Anywhere:** Work from anywhere you have an internet connection In most instances, you can connect using laptops, tablet, and even smart phones meaning that you can work anytime you wish from any location.
- **Scalability:** One of the benefits of Cloud based Products is being able to increase/decrease your server needs.
- **Easy to Use:** Virtual-IT databases have been supporting southern African Industry for over 17 years, so our products are tried and tested, we are now offering our easy to use databases via the Cloud. Users can login from anywhere in the world using their laptops, tablets or even mobile phones.
- **Green:** Our databases have been “Green” for many years. By installing, supporting and training via the internet, we have cut our carbon foot print. With our new Cloud based systems we will continue along that path.
- **Easy Access:** As long as you have an internet connection you can access the database from anywhere and anytime.
- ...and much more

Introducing our New Dashboard Reports

How do you get your Excel Exports from Looking like this.....

To this

It's Easy with a Virtual-IT Core Dashboard.

WHAT IS A DASHBOARD?

A dashboard gives management a quick, visual report of Key Data relative to your business.

Designed to give you quick data feedback. Indicating areas that you may need to watch and allowing you to "drill down" for problem solving.

If you'd like to know more about how it works, please give us a call.

Prices for Purchasing a Platinum Plus and Cloud Hosting it

How does the pricing work?

You can purchase a Platinum Plus database for the number of users you require. The price is a once off cost. Then you can host it on our cloud Server for the monthly fee as shown.

Purchase a Platinum Plus LMS	Price exc. Vat – <u>Once off cost</u>
Single User	R 11 975.00
2 User License	R 16 950.00
3 User License	R 21 950.00
5 User License	R 29 950.00
10 User License	R 52 000.00
In Excess of 10 User License	On Application
Initial Import of Learner Contact Details -Only	Can be Quoted on Request

Cloud Hosting Licences	Platinum Plus Cloud Hosting Fees for the <u>Monthly Cost exc. Vat</u>
2 User License	R 1 290.00
3 User License	R 1 935.00
5 User License	R 3 225.00
10 User License	R 6 445.00
In Excess of 10 User License	On Application

If you are looking to offer some of your Courses online or would like potential Learners to capture their Contact details and supporting documentation online so it can be imported into your Platinum Plus with a few mouse clicks, please chat to us about Virtual-Learning our e-Learning platform.

What are the Benefits to You?

- Low Cost
- No Annual License Fees
- Easy to Use
- Unlimited access to Training Videos so you can Train when you want to
- Easy to update Unit Standards
- Automatic Backups
- Easier Software Upgrades
- and much more

Where possible we can Quote on Customising the LMS for you and/or importing your current data.

Terms and Conditions are readily available on request.

*Data Storage limited to the number of user licences you have. Please contact us for more details
